

Dear Friend,

I am really glad to read from you and I believe God has directed me to you at this point in time, so do not be afraid or wondering why you have been chosen for this purpose. I got your contact through my personal research on India online Database and I am writing you this mail with heavy sorrow in my heart. I was in India with my late husband many years ago and I have seen an indication of worsening living conditions and increasing poverty among some Indians.

Like I said earlier my reason for contacting you is what God has directed me to do and I have decided to contact you directly and hope you shall have a cheerful heart as well. My name is Mrs. Vidya John from the United State of America and I am presently receiving cancer treatment in The James Cancer Hospital, USA (Address: 460 W 10th Ave, Columbus, OH 43210) . I'm half Indian and half American (Indian Americans). I was married to Late Mr. Benjamin John who was working with an Oil and Gas Company for Thirty good years before his demise in the year 2005. We were married for 27 years without a child but happily married till his death which was due to Pneumonia and could not have been treated as it got worse. Since his demise I have decided to stay single as I was happy and will always remain happy till my dying days.

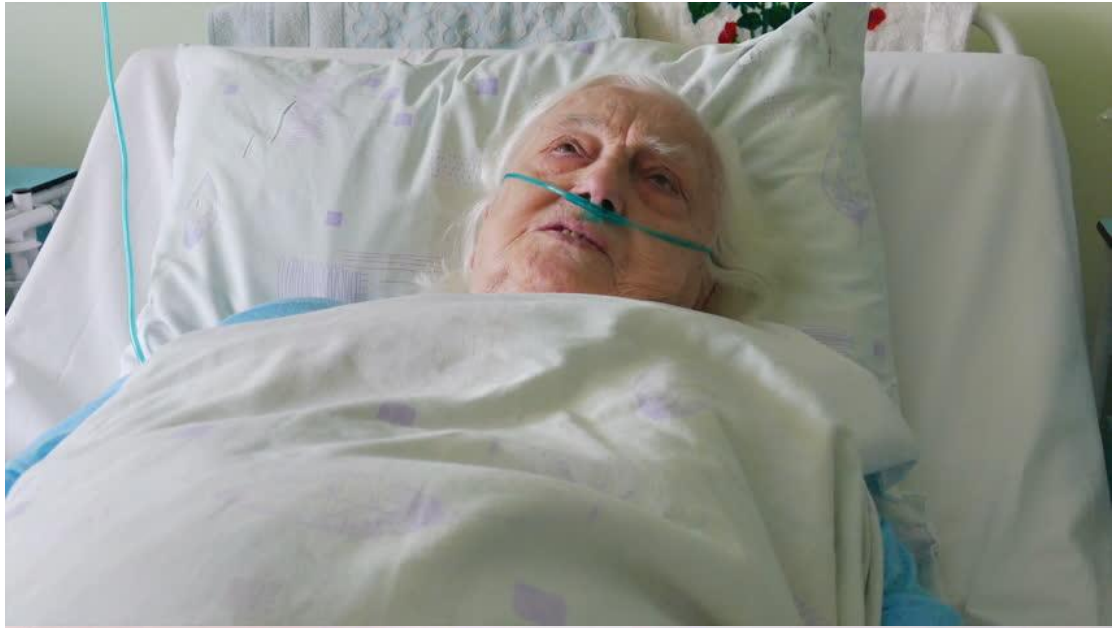

But before my late husband passed away he deposited Three Million Nine Hundred Thousand United State Dollars (\$3,900,000.00 USD) in a bank which I have decided to send to you for a good cause in India. The money is still in the bank which was initially in his name but after his demise I became the next of kin to claim the funds. Recently my doctor told me that I will not last for more than 8 months due to Corona virus disease (COVID-19) outbreak. And I believe that whoever wants to serve God must serve him in spirit and truth and please remember to be prayerful all through your life.

Now that I have realized my condition I have decided to hand this money over to you to help the less privileged people in India and I believe you will utilize this money the way I am going to instruct herein. Which you will donate 70% to charity, orphanage and establish a business which would benefit the public who are jobless/poor as well, then 30% of the total amount of money is for your personal use only.

Unfortunately I do not have any child to hand over my inheritance to at this moment and my husband's family are just hypocrites who are not worthy of this money. I actually grew up as an orphan before getting married to my husband and i know how it feels until i met my husband luckily.

Please be honest and sincere to me if you will abide by my words. If "YES" then kindly write me back immediately and I shall connect you with my lawyer who will prepare the Letter of Authority on my behalf and also make you my next of kin in order to get the funds transferred to you through bank to bank transfer..

I will be expecting to hear from you soon. I have attached herein some of my pictures for you to know about my present medical condition.

Yours truly,

Mrs. Vidya John
