This is a fraud man . This is a fraud post .
He has copied my sale post of same plants
exactly word by word . Most of the images of
cymbidiums are downloaded from internet
other peoples images .
By the looks of it he is professional fraudster.
Plant lovers please be careful before buying
from new sellers. It is because of people like
him that genuine sellers and plant growers are
suffering
Admin please remove this post and man from
group .
