This is a situation where your account will be frozen by the merchant. Considering that you are a newbie, the merchant will give you a chance to make up for your mistakes. You now need to complete a repair order to repair the wrong data in your account. After the repair is completed, you can get a normal refund.

This is the only solution given by the merchant 14:40

AK [Anand Kumar](#) 14:50
first deal $5000 + 1800 = 6800$
second deal $20000 - 8000 = 12000$ (as company invested 10k should
4k profit means I owe them 2k)
third deal $30000 + 15000 = 45000$

balance is 63800

out of which I will give back $15000 + 2000 = 17000$

L [LokeshYadav](#) 14:51
Yes

AK [Anand Kumar](#) 14:51
you have to deduct 12000 from total as it belongs company

$10000 + 4000 + 15000 = 29000$ i should pay back out 63800 14:53

AK	Anand Kumar You know i donot have source know either by me or by merchant For merchant I am ready part away with profit to compensate him. Think from my point view, I was asked to arrange 30k. What if I had not organised 30k.	18:17 18:17 18:19 18:20 18:21
L	LokeshYadav Your account will be frozen if the order is not completed I have already said	18:23 18:23
AK	Anand Kumar yes you said, I do agree If you had told me when I 20k it is already overtime, it is not safe, I would not risk of making payment, right.	18:26 18:27
L	LokeshYadav If you don't pay, you won't be able to get your funds back	18:29
AK	Anand Kumar boss, know it 30 + 10 + 5 30 would not have got locked	18:29 18:30

LokeshYadav

there is no option whether we want accept order or not, It has forced on us without consent. 18:42

AK [Anand Kumar](#) 19:02

Even now they created a task without our consent

by creating a task merchant is neither investing nor placing order in the platform, that should not worry him at all. 19:04

Lokesh let me talk the merchant or your business division 19:05

I use to trade Eur/USD sometime back, my broker would generate forecast, but that never gets placed into the market 19:06

Only orders we place would affect his commission and our profit or loss 19:07

You have learnt 2 things advance will not be given for the second and overtime. I fail to understand overtime or overdue. 19:09

Is merchant investing anything by creating a task? 19:10

L [LokeshYadav](#) 19:17

What you should do now is arrange funds as soon as possible instead of talking nonsense here

AK [Anand Kumar](#) 19:19

Honestly is this nonsense.

I did not this order too, you cannot anyone, first solve my issue, 19:20

Or let me talk to people, these are not god made rules. 19:21

I did not ask for any of this, you guys are dumping holding our money. 19:23

Instead of pushing me, let me talk to people 19:28

This company says they are not associated with you. 19:34
