6/18/25, 1:40 pm - +91 84570 80286: Stock Market Closing Information

The Nifty50 index closed at 24,812.05, down 41.35 points or 0.17%. The Sensex hit an intraday low of 81,237 and finally closed at 81,444.66, down 138.64 points or 0.17%.

The Sensex and Nifty retreated from their lows of the day, driven by gains in auto and private banking stocks. However, the market experienced a turbulent day as investors turned cautious due to the escalation of the Israel-Iran conflict. According to reports, Israeli airstrikes damaged Iran's underground uranium facility in Natanz, and missile attacks between the two countries continued for the fifth day.

The Nifty Midcap 150 fell 0.5%, dragged down by Hindustan Zinc and Max Healthcare.

Ramco Cements and Happiest Minds were the top losers in the Nifty Smallcap 250. All sectoral indices ended lower except Nifty Banka and Auto.

Nifty Media fell 1%, the worst performing sector.

Saregama and Zee Entertainment were the top losers in Nifty Media.

Nifty Media Metal, Oil & Gas, Real Estate, FMCG, Nationalised Banks, Pharma, Financial Services fell for the second day in a row. Nifty IT's three-day winning streak came to an abrupt halt.

Hind Zinc shares fell 6% as Vedanta sold 1.6% stake for over Rs 30,000 crore
Voltas and Blue Star saw trading volumes fall as air conditioner demand remained below expectations

Mid-cap banks (RBL, Bandhan and AU SFB) closed solidly higher by 3-5%

Crude oil prices retreated from highs, OMCs (IOC, BPCL and HPCL) closed at lows

6/18/25, 1:58 pm - +91 84570 80286: Hello everyone, I am Gokul Laroia.

6/19/25, 6:50 am - +91 84570 80286: Stock Market Morning Info

Nifty50 had a dull session before the opening bell and traded below 24,850.

Sensex fell around 40 points and traded below 81,450. I think Nifty50 may find support between 24,650-24,700.

Fed rate decision, escalating tensions between Israel and Iran, Nifty F&O expiry, mixed global cues and institutional activities may affect the benchmark indices Sensex and Nifty today.

Gold price rose 0.24% to \$3,377.58 per ounce as of 7:52 am

Brent crude oil traded 0.30% lower at \$76.47 per barrel as of 7:45 am, the price has fallen 1.34% to \$75.67 per barrel.

As widely expected, the Federal Reserve kept the federal funds rate in a range of 4.25% to 4.50% for the fourth consecutive meeting. Policymakers remain cautious in assessing the full impact of President Trump's economic policies on tariffs, immigration, and taxes. Although officials pointed to reduced economic uncertainty, they still expect two rate cuts later in 2025 and only small adjustments in 2026 and 2027.

US stocks closed mixed. The Dow Jones fell 0.10%. The S&P 500 fell slightly by 0.03%, while the Nasdaq Composite rose 0.13%.

In terms of institutional activity, foreign institutional investors (FIIs) bought a net of INR 945.35 crore worth of stocks. Similarly, domestic institutional investors (DIIs) bought a net of INR 952.81 crore worth of stocks on June 18.

6/19/25, 10:44 am - +91 93015 79693: It should be difficult to apply for IPO, especially for us retail investors

6/19/25, 10:57 am - +91 77089 41383: Morgan Stanley is a well-known international financial institution. I believe the professor has plans in this regard

6/19/25, 11:07 am - +91 96685 59245: As long as everyone has this need, I believe the professor will recommend IPO

6/19/25, 11:20 am - +91 88744 73929: IMG-20250619-WA0041.jpg (file attached)

6/19/25, 11:22 am - +91 88744 73929: Thanks to Professor and Mam, I have signed up for Plan B

6/19/25, 11:33 am - +91 90654 69906: Can AI accounts still participate in IPO subscription?

6/19/25, 11:44 am - +91 95231 78849: Morgan Stanley AI quantitative trading account is very powerful. It fully possesses this attribute. It depends on whether the professor team has laid out the plan

6/19/25, 12:04 pm - +91 96187 27328: IMG-20250619-WA0047.jpg (file attached)
Recharge completed, participate in more AI transactions, thank you professor for giving me this opportunity

6/19/25, 12:05 pm - +91 80814 34969: Morgan Stanley is involved in many fields. It depends on whether the professor will lead us to make money in more fields in the future

6/19/25, 12:07 pm - +91 84570 80286: I see many friends are interested in IPO, but I think everyone should first complete the first step of wealth accumulation

6/19/25, 12:11 pm - +91 84570 80286: Look at the well-known bigwigs in the market. Every one of them has accumulated capital rapidly through hype of one topic after another, thus becoming stronger and stronger. Therefore, we need to find a direction with a high probability of being right in this uncertain market and quickly accumulate original capital.

6/19/25, 12:13 pm - +91 81700 80426: OK

6/19/25, 12:14 pm - +91 89482 21950: OK, sir

6/19/25, 12:15 pm - +91 84570 80286: This direction requires innovation, large

capacity, and strong policy support, that is, AI intelligent quantitative profit with stable returns, plus contract trading of large IPOs in the primary market.
6/19/25, 12:15 pm - +91 84570 80286: The first step is to complete the accumulation of wealth;

the second step is to use AI intelligent quantitative call auction to fix profit transactions, combined with IPO block transactions, which will be the planning of our investment portfolio;

6/19/25, 12:17 pm - +91 84570 80286: Only by forming a systematic investment portfolio plan can you clarify the trading system. Maximize the implementation of not making small profits and not losing big money, cut losses, and let the net value continue to grow in a high profit and loss situation. This is the secret path to success.

6/19/25, 12:20 pm - +91 84570 80286: Although the IPO returns are high, the chance of winning is very low! Follow my layout and wait for you to complete the initial capital accumulation. If there is an opportunity, I will take you to participate in the IPO plan. I am confident that the success rate can reach more than 70%

6/19/25, 12:24 pm - +91 97330 93571: Ok, professor

6/19/25, 12:24 pm - +91 89546 77610: kK , got it

6/19/25, 12:25 pm - +91 63898 52314: OK sir

6/19/25, 12:28 pm - +91 99374 04503: OK, professor 🙏

6/19/25, 12:34 pm - +91 80020 45499: Okay, professor

6/19/25, 12:38 pm - +91 97199 57163: Thank you sir

The benchmark indices Sensex and Nifty are likely to be guided by a variety of global and domestic factors today, including Japan's inflation data, China's loan prime rate decision, escalating Israel-Iran tensions, India's foreign exchange reserve data, and institutional activities. The Nifty index has been trading in the 24500-25000 range for about a month and is likely to remain in this range in the short term. The upper limit of the range will be breached only if there is news of a de-escalation in the Israel-Iran conflict or a sudden end to the war.

6/20/25, 10:48 am - +91 63898 52314: I believe the professor's team will plan the IPO next, and we need to wait patiently

6/20/25, 11:02 am - +91 89771 98921: The IPO subscription process is relatively complicated. I believe that large financial groups like Morgan Stanley have the strength to deploy it

6/20/25, 11:14 am - +91 92166 68358: IMG-20250620-WA0033.jpg (file attached)

6/20/25, 11:15 am - +91 92166 68358: Funds have arrived in AI account, and we are looking forward to the implementation of Plan B and future IPO

6/20/25, 11:29 am - +91 96271 59634: After all, the professor is a very experienced professional mentor, and with the support of the Morgan Stanley consortium, it is hard not to make money🤑

6/20/25, 11:38 am - +91 97330 93571: Today, the relevant department investigated my funds. They suspected that I was involved in money laundering. What should I do?

6/20/25, 11:40 am - +91 81700 80426: I have the same experience. Is there money flowing in and out of your bank account every day?

6/20/25, 11:42 am - +91 97330 93571: I just withdraw the profits I earn from AI trading every day

6/20/25, 11:43 am - +91 70509 96729: Choice is better than hard work. I am lucky to join the Morgan team😊

6/20/25, 11:45 am - +91 81700 80426: You can try to accumulate profits and then withdraw them monthly

6/20/25, 11:47 am - +91 97330 93571: Ok thanks, I'll try that

6/20/25, 11:54 am - +91 90630 75135: Due to work reasons, I usually don't have time to trade stocks. I look forward to the IPO recommended by the professor. I

AI account funds increased and participated in plan B

6/20/25, 12:30 pm - +91 89482 21950: The professor said yesterday that we need to accumulate wealth first. I believe the professor's team will have an IPO plan

6/20/25, 12:41 pm - +91 80095 57025: I once participated in an IPO and made a 170% return, but that was three years ago

6/20/25, 12:49 pm - +91 93015 79693: IPO stocks may experience large price fluctuations in the early stages of listing. I have participated in an IPO before and the overall return reached 300%

6/20/25, 12:57 pm - +91 94440 74646: The probability of a successful IPO is very low

6/20/25, 1:00 pm - +91 80020 45499: With the professor's guidance in using AI smart accounts, I believe the chances of winning the IPO are great

This month, through our AI intelligent quantitative account, many friends increased their funds to keep up with the purchases, and they all achieved good returns! Even doubled the profit! Some friends are still waiting and dare not take this step, and can only watch and miss good returns. I can only say: all the benefits are reserved for those who are prepared! Action will bring you more returns.

⚠️ Plan B will be collectively bought at 6:00 pm on June 22. Students who participate should remember to contact Assistant Bhagyashree and prepare for the purchase in advance.

6/20/25, 1:52 pm - +91 84570 80286: In addition, IPOs are very popular recently, and my team has made preparations for the war. If there is an opportunity, I will lead everyone to participate in the IPO investment plan! But first, everyone needs to accumulate wealth and enough original capital so that they can better seize the profit opportunities of IPO!

Tomorrow's AI stocks have been announced. Friends who want to buy can contact Bhagyashree Assistant to get the purchase details!

At 7:00 this evening, I will take the time to give you a brief explanation of the IPO.

6/23/25, 4:37 pm - +91 84806 73591 changed this group's settings to allow all members to send messages to this group

6/23/25, 4:38 pm - +91 84570 80286: What is an IPO? What is the logic of capital operation behind it? IPO listing refers to the first time that an enterprise or company (stock company) sells its shares to the public (initial public offering, which refers to the first time a stock company publicly offers shares to the public), and the company publicly raises capital and is listed on the market, which is the process or behavior of becoming a stock company that can be traded by investors.

6/23/25, 4:41 pm - +91 84570 80286: Today I will briefly explain the logic of capital operation behind IPO. IPO is the initial public offering. The company has passed the review of the Securities and Exchange Commission of India. The company needs to give a part of its shares to the securities firm for underwriting and issue them according to a certain proportion.

6/23/25, 4:43 pm - +91 87577 58850: Is there a specified quantity that each person can purchase? Because I need to buy more IPO stocks

6/23/25, 4:44 pm - +91 96685 59245: The funds are ready, and we are looking forward to the IPO recommended by the professor

6/23/25, 4:45 pm - +91 84570 80286: The underwriting brokerage will find some institutions and private equity investors to sell your company's stock to them, and the brokerage and they will set the stock price.

6/23/25, 4:51 pm - +91 84570 80286: Investment institutions and securities firms also want to make profits. And they are 100% guaranteed to make profits, because this involves the cost of using funds. In order to successfully go public, companies must go through securities firms and institutions with market influence to complete the sale. However, listed companies themselves have no money, so they will authorize investment institutions in the form of discounted stock prices, so that they can flow into the secondary market for trading.

6/23/25, 4:52 pm - +91 74003 83625: Thanks for sharing, Professor 🍌

6/23/25, 4:55 pm - +91 84570 80286: What is public trading in the secondary market? It means that retail investors can freely buy and sell your stocks in the secondary market. In this process, the company, underwriters and institutions will use various channels to promote and package the company's future development and value, thereby increasing the valuation of the company's stock. Before listing, the stock price will increase by 10 to 100 times, thereby making huge profits.

6/23/25, 4:58 pm - +91 80020 45499: Thank you for sharing, I hope I can subscribe to more IPO stocks

6/23/25, 5:00 pm - +91 84570 80286: IPOs are implemented in the form of pre-sale of shares, with a minimum purchase of 1 share, for which the country has clear regulations. The minimum purchase amount is based on the principle of more money to be refunded and less money to be supplemented. The shares are matched in advance through institutional authorization, and the actual buying and selling transactions are completed by the stock accounts authorized by the issuing investment institution.

6/23/25, 5:06 pm - +91 84570 80286: You can use the AI account of Morgan Stanley Investment Institution to participate in the IPO subscription in the primary market, which is more guaranteed and profitable.

1. The most obvious advantage is the subscription price, which is lower than the price of ordinary retail investors.
2. Morgan Stanley participated in the brokerage cooperation project of this IPO, and we have a certain share.
3. AI smart account belongs to institutional account, and the chance of successful subscription will be greatly improved.

This is the sharing of advantageous resources. At present, the docking work of the first IPO this month has been completed, and it is expected to officially start the subscription plan on June 25.

6/23/25, 5:08 pm - +91 92334 66149: Using Morgan Stanley's authorized AI account to buy IPO stocks can get high returns. I will add more funds to participate

6/23/25, 5:10 pm - +91 78382 59769: Thanks for sharing sir, I will follow your instructions

6/23/25, 5:11 pm - +91 96271 59634: This time, Plan B has a profit of nearly 30%. I feel that the IPO should have a profit of at least 100%, or even higher

6/23/25, 5:12 pm - +91 84570 80286: Today's sharing ends here. The large discount transaction of this IPO is rare, and the expected return will be more than 80%. Everyone should seize this rare opportunity.

Everyone can contact the assistant in advance to sign up. At that time, the subscription details can be completed under the guidance of the assistant, which can ensure the high signing rate of the IPO.

6/23/25, 5:14 pm - +91 72076 00454: I will add more funds to the AI account, so the probability of successfully subscribing to the IPO will be greatly increased

6/23/25, 5:15 pm - +91 84806 73591 changed this group's settings to allow only admins to send messages to this group

6/24/25, 6:44 am - +91 84570 80286: Stock Market Morning News

Before the opening, the NSE Nifty 50 index rose 0.83% to 25,179.90 points and the BSE Sensex rose 0.78% to 82,534.61 points. I think a sustained break above 25,225 points will confirm bullish strength and may bring further gains.

Major stock benchmarks may open higher after US President Donald Trump announced an Israel-Iran ceasefire. As of 7:15 am, GIFT Nifty futures were quoted at 25,170 points, suggesting that the NSE benchmark Nifty 50 index may open higher by more than 229 points.

Trump announced a "comprehensive" ceasefire between Israel and Iran, marking a possible end to the nearly two-week conflict in West Asia.

The US President said the agreement will come into effect around midnight (EST) on Tuesday, with Iran initiating a 12-hour ceasefire, followed by Israel. If the agreement goes through, the comprehensive ceasefire will officially come into effect at midnight on Wednesday.

Meanwhile, Asian stocks rose, with gains as high as 2.5%. South Korea's Kospi rose 2.5%, while Taiwan's stock market rose 2%. Japan's Nikkei rose more than 1%. The Hang Seng and Straits Times Index rose about 0.7% each.

Overnight, US stocks closed stronger before the ceasefire news. The Dow Jones, Nasdaq and S&P 500 all rose nearly 1%.

In commodities, gold prices fell more than 1% to \$3,357 an ounce as geopolitical crises eased. Silver prices fell 0.6%. West Texas Intermediate crude oil futures plunged 3.4% to \$66.23 a barrel; Brent crude oil futures fell 1.2% to \$68.39 a barrel.

HDB Financial Services will launch the largest-ever initial public offering (IPO) in India's non-banking financial company (NBFC) sector on Wednesday, June 25, 2025. The IPO is valued at Rs 12,500 crore, making it the largest IPO in the sector and the largest IPO so far in 2025.

Easing tensions in the Middle East, comments from the Federal Reserve, active primary market activity, institutional flows and mixed global cues are likely to influence key benchmarks Sensex and Nifty today.

That said, GIFT Nifty futures were trading 40 points higher at 25,292 around 8:35 am, indicating a good start for the bourse.

The Reserve Bank of India in its latest State of the Economy report said that the Indian economy remains strong despite global challenges. The central bank has cut its repo rate by 100 basis points to 5.5% since February and the phased reduction of 100 basis points in the repo rate from September 6 will inject Rs 2.5 trillion of liquidity. The move is expected to reduce funding costs and enhance credit market transmission.

Global cues

Asia Pacific markets opened mixed on Thursday as investors closely watched the progress of the ceasefire between Israel and Iran.

The Nikkei rose 0.98% and the Topix gained 0.48%, according to the latest data. South Korea's Kospi fell 0.51% and the Australian Stock Exchange 200 fell 0.11%.

U.S. stock futures were mostly flat. S&P 500, Nasdaq 100 and Dow Jones Industrial Average futures all hovered near flat lines.

On Capitol Hill, Federal Reserve Chairman Jerome Powell struck a cautious tone on inflation and tariffs during a second day of hearings. While Powell did not commit to a timetable for rate cuts, he reiterated that a rate cut could be considered if inflation proves temporary - a stance he also expressed in his testimony before the House Financial Services Committee. President Donald Trump is currently putting increasing pressure on the Fed to cut rates.

U.S. stocks fluctuated slightly overnight. The S&P 500 closed just below the flat line at 6,092.16 as investors assessed the possibility of the index returning to its all-time high. The Nasdaq Composite Index rose 0.31% to 19,973.55 points, while the Dow Jones Industrial Average fell 0.25% to 42,982.43 points.

Investors are currently awaiting the final data of the US GDP price index for the first quarter and unemployment claims data.

Foreign investment, direct investment

In terms of institutional activity, foreign institutional investors (FIIs) sold stocks worth a net of INR 230,610 million. In contrast, domestic institutional investors (DIIs) bought stocks worth a net of INR 201,814 million on June 25.

After the stock market opened, Nifty50 rose more than 40 points and traded close to 25,600 points. The Sensex index was weak in the pre-opening trading session. The index traded below 83,750 points.

That said, around 8:00 am, GIFT Nifty futures were trading 116 points higher at 25,730 points, indicating the start of a positive gap-up.

Overnight, US stocks rose across the board. The S&P 500 rose 0.8% to close at 6141.02 points, with a weekly gain of 2.9%, approaching the all-time intraday high of 6147.43 points hit in February.

Commodity Corner

Gold fell 1% on Thursday as better-than-expected U.S. nonfarm payrolls data dampened hopes of an early rate cut by the Federal Reserve, leading to a drop in safe-haven appeal for gold.

Spot gold fell 1% to \$3,325.48 an ounce, while U.S. gold futures fell 0.7% to \$3,336.00 an ounce.

Crude oil prices also edged lower on concerns that the United States may reinstate tariffs, which could weigh on demand while major producers are expected to increase output.

Also read: Crude oil prices may fall to \$55-60 a barrel by December 2025: Premasish Das

Brent crude futures fell 68 cents, or 0.98%, to \$68.43 a barrel, while U.S. West Texas Intermediate (WTI) futures fell 84 cents, or 1.25%, to \$66.61 a barrel.

The decline came after oil prices briefly retreated. Both benchmarks hit a one-week high on Wednesday as geopolitical tensions flared again after Iran

suspended cooperation with the United Nations nuclear watchdog. A preliminary trade deal between the United States and Vietnam also provided brief support to oil prices.

7/4/25, 7:58 am - +91 98009 35404: I would like to know this too, because I need to keep more available funds to participate in Plan B and other AI stocks

7/4/25, 8:09 am - +91 81700 80426: Since all my funds are in the IPO, I can't participate in Plan B. I will raise funds for Plan A over the weekend

7/4/25, 8:24 am - +91 93015 79693: Generally, before a stock rises, the main institutions need to absorb a large number of stock chips, and the slow decline is to better absorb the stocks in the hands of retail investors

7/4/25, 8:39 am - +91 97610 00171: We need to wait for the opportunity

7/4/25, 8:59 am - +91 92334 66149: A short-term decline is for a better rise 😊

7/4/25, 9:17 am - +91 92166 68358: IMG-20250704-WA0028.jpg (file attached)

Follow the professor's strategy and participate in the purchase of Plan B

7/4/25, 9:38 am - +91 97926 28536: After all, IPO stocks have just been listed, and it will take time for them to rise. We need to wait for the professor's notice

7/4/25, 9:54 am - +91 96274 88265: Investing is a long-term process. We need to have a good attitude and respect the market, otherwise you are destined to lose money

7/4/25, 10:12 am - +91 96685 59245: No matter what you do, your mindset determines your success or failure, especially in the field of investment. No matter how good a mentor you meet, if you don't have a good investment mindset, you will be helpless

7/4/25, 10:30 am - +91 93627 10634: I used to make less money and lose more when investing in stocks, and that was caused by my bad mentality

7/4/25, 10:51 am - +91 70509 96729: Like you, I think investing is an easy thing since I joined the professor team

7/4/25, 11:10 am - +91 89771 98921: The reason why you make money must be that the professor team has made great efforts, so we must thank the professor and mam

7/4/25, 11:34 am - +91 80095 57025: When I trade stocks, I often sell them when I make 5%, but I am reluctant to sell them when I lose 20%. Is this caused by a bad mentality? 😊

7/4/25, 11:57 am - +91 97300 15628: IMG-20250704-WA0043.jpg (file attached)

7/4/25, 11:59 am - +91 97300 15628: Increase the funds in the AI account and accumulate a certain amount of wealth first, so that you can participate in any layout of the professor in the future

7/4/25, 12:18 pm - +91 62871 16903: This is due to a bad mentality, incorrect stock selection, and incorrect predictions of target prices for stock price increases

7/4/25, 12:36 pm - +91 97199 57163: It seems that everyone has the same problem. I used to trade long-term stocks, but after joining the professor's group, I like to trade short-term stocks because short-term stocks have greater returns

7/4/25, 12:51 pm - +91 75709 05104: Long-term stocks also require choosing the right stocks to make money. For example, the yesbank I bought three years ago is still losing money 😞

7/7/25, 8:07 am - +91 84570 80286: Hello everyone, I am Gokul Laroia. Due to the upcoming launch of the Morgan Stanley AI Quantitative Trading System APP on July 14, trading will be suspended for a while!

So we have no choice but to sell the IPO stocks today. This IPO did not meet our expectations. For this reason, I will recommend a bonus stock to everyone tonight, with a profit of more than 30%! In order to make up for the insufficient profit of the IPO.

⚠️ We will conduct our last transaction tonight. For the safety of funds, everyone will withdraw all funds from their accounts tomorrow. We will continue trading after the Morgan Stanley App goes online next week! ⚠️

7/7/25, 8:11 am - +91 97813 71729: OK sir, I will follow your advice

7/7/25, 8:33 am - +91 63898 52314: Yes, Morgan Stanley's trading platform is going to launch a large model APP, and it will be even more perfect in the future
7/7/25, 8:43 am - +91 96274 88265: So, there will be no AI stock trading recommendations in the next 7 days?
7/7/25, 8:56 am - +91 88744 73929: It seems like this, we need to wait for the APP to be released before operating transactions
7/7/25, 9:08 am - +91 96685 59245: I will increase my funds today to buy the stocks that the professor recommends tomorrow

7/7/25, 10:26 am - +91 92166 68358: After tonight's AI stock, it means we can no longer trade AI stocks in the near future

7/7/25, 11:02 am - +91 70772 86627: I really like the trading model of the AI platform. I look forward to optimizing the recharge method after the APP is launched
7/7/25, 11:19 am - +91 97199 57163: Yes, I need to re-bind the account beneficiary every time I recharge, which takes 24 hours and is very troublesome 😞
7/7/25, 11:33 am - +91 70509 96729: After the APP was launched, it became much more convenient for us investors. We no longer have to worry about missing out on Plan B due to the inability to add funds in time 😊
7/7/25, 11:45 am - +91 84570 80286: ⚠️ Morgan Stanley IPO has been delivered, and now you can sell all of it! This IPO has a profit of 21%.

In order to make up for the lack of this IPO profit, I will lead everyone to participate in the purchase of more than 30% of the stock in the evening as a reward! I hope everyone can participate and make a certain profit! ⚠️
